

## **Amazing acoustic ceiling panels for you**

Are you one of those who want to control the sound in your space? If yes, then acoustic ceiling panels can be the best upgrades you can make to make it happen. They can significantly improve the value of high-end speaker systems as well as control echoes and volume issues in public spaces. Moreover, when the situation demands installing the panels on the ceiling, the installation can be a bit intimidating. Also, choosing from a wide range can make it a bit overwhelming.

Therefore, CSI Wall Panels is here with the best range of decorative acoustic panels for you. Our exclusive range is sure to make you drool over the options. Moreover, we are sure that you will get your best pick with us. And, once you are with us, you will never regret your decision. Always pick the best one.

## **Sound dampening tiles for all ceilings**

Get amazing sound dampening tiles for any ceiling you want. Also, you can get multiple functions when it comes to utilizing these wall panels – acoustics, privacy, custom printing, room divider, tackable, aesthetics and more.

With a strategic placement, these panels can help you improve sound quality. They come in a range of shapes and sizes; you can get the one that compliments the design of your room. With installed correctly, they can absorb or diffuse sound from the first point of reflection. Depending on your intended purpose, you can get the best panel with the desired application, function and material.

## **Decorative acoustic panels with functionality and aesthetics**

Whether you want to gain sound insulation or decorate your space, we offer the best decorative acoustic panels. With the right combination of functionality and aesthetics, they are the best. Moreover, until recently, acoustic panels have been an integral part of the building envelope – indispensable to safeguard against unwanted sounds and noises.

Therefore, the aesthetic factor was sidelined with more importance being given to functionality.

However, on the contrary, today aesthetics is an integral part of any space – be it residential or commercial. For this reason, we have developed decorative acoustic panels for interiors. From the most unusual designs and patterns to shapes and colours, you get the best from us. They are capable of furnishing the space with the desired visual appeal with practical solutions and versatility. Also, you can choose from multiple applications like wall-mounted, partially mounted, fully suspended, mobile, free-standing, modular, attachment and more.

### **Dress your ceiling with the best decorative acoustic panels**

The range of acoustic panels we offer is made of quality and sustainable material. Moreover, you can get these in different materials to suit your preferences – Soundcore®, Poshfelt®, MDF, gypsum, reinforced plastic, aluminium, laminates, mineral fibres, wood veneer and more. With these decorative sound panels, you can be assured of excellent sound absorption and insulation.

For more details, always feel free to get in touch with us. We will always be glad to assist you at any time with anything you have.
